PROFILE

Graphic Designer and aspiring UI/UX Designer with project-based experience in retail branding, shop identity, and promotional creatives. Skilled in developing clear visual layouts using typography, colour, and composition. Familiar with Adobe Photoshop, Illustrator, InDesign, and Figma, with additional knowledge of motion and animation tools. Seeking an entry-level graphic design or UI/UX opportunity to contribute creative skills and continue learning in a professional team.

EXPERIENCE & CLIENT PROJECTS

Graphic Design & Branding | Raj Mobile Hub
Client Project

- Created branding-focused visual materials for a retail mobile shop.
- Applied consistent colours, typography, and layout across promotional designs.
- Prioritised product visibility and clear information hierarchy.

Graphic Design & Brand Identity | Shree Khatushyam Grocery Mart
Shop Branding Project

- Developed a branding concept to support a recognisable shop identity.
- Explored suitable colour palettes, typography, and layout options.
- Considered how the visual style could extend to shop promotions.

SELECTED PROJECT

100 Pipers Whisky · Branding Concept
Self-initiated concept project

- Explored a premium visual direction through typography, colour, and composition.
- Focused on a cohesive brand presentation and consistent visual mood.
- Concept work only, not commercial client work.

DESIGN APPROACH

- Understand the brief and intended audience.
- Research visual references and explore layout options.
- Refine typography, colour, and composition for clarity and consistency.
